Islamabad, Pakistan

ABOUT ME

I'm a Full Stack Web Developer and UI/UX Designer who loves turning raw ideas into clean, functional, and visually striking digital products. Working across ReactJS/NextJS, Node.js, Express, MongoDB, Tailwind, Bootstrap, and various CMS systems, I bridge design and development by transforming Figma concepts into pixel-perfect, high-performance web experiences. From business dashboards to real estate platforms and personal portfolios, I focus on building intuitive, scalable solutions that feel effortless for users. I've delivered multiple MVPs and full-scale applications that not only meet requirements but consistently surpass client expectations across top freelancing platforms. Driven by curiosity and product thinking, I thrive on shaping ideas into real, impactful tools people actually enjoy using.

SKILLS

HTML5 • CSS3 • JavaScript (ES6+) • TypeScript • React.js • Next.js • Redux • Zustand • Framer Motion • Tailwind CSS • Bootstrap • Material UI • DaisyUI • Figma • Spline • REST APIs • Node.js • Express.js • MongoDB • MySQL • PostgreSQL • Firebase • JWT Authentication • Bcrypt • API Integration • Git • GitHub • CI/CD • Vercel • Netlify • WordPress • Sanity

WORK EXPERIENCE

FULL STACK DEVELOPER

(2024 - Present)

UPWORK / LINKEDIN

- Delivered 10+ client projects via Upwork and LinkedIn, building full-stack Solutions, WordPress websites, MERN stack applications, and Figma-based UI designs, maintaining high client satisfaction through on-time delivery and clear communication.
- Led frontend development and end-to-end UI/UX for a deployed AI Text Detector + Humanizer SaaS MVP, transforming wireframes into a scalable ReactJS interface integrated with REST APIs and Sanity CMS for real-time blog publishing, improving usability, content management efficiency, and overall user flow.
- Built and launched Resumon, an AI-powered resume builder developed collaboratively on the MERN stack, owning the end-to-end frontend UI/UX, integrating AI-driven resume generation, OAuth and JWT/Bcrypt authentication, and deploying a production-ready application from scratch.

FRONT-END DEVELOPER

(Sep 24 - Dec 24)

NUEXUS TECHNOLOGIES

- Gained hands-on experience in front-end development by designing and implementing real-time projects using ReactJS or Tailwind CSS.
- Collaborated with the team to build and optimize responsive web pages, ensuring cross-browser compatibility and seamless user experiences.
- Worked on a live project to develop a fully functional landing page, adhering to client requirements and modern design principles.

EDUCATION

BACHELOR IN COMPUTER SCIENCE

(2023 - 2027) Present

Riphah International University (Islamabad)

CGPA: 4.0
